VMware Carbon Black App Control Administrator

CODE:	LENGTH:	PRICE:
VMW_VCBACA	8 Hours (1 day)	kr 5,145.00

Description

This one-day course teaches you how to use the VMware Carbon Black® App ControlTM product and leverage the capabilities to configure and maintain the system according to their organization's security posture and organizational policies. This course provides an in-depth, technical understanding of the Carbon Black App Control product through comprehensive coursework and hands-on scenario-based labs.

Objectives

By the end of the course, you should be able to meet the following objectives:

- • Describe the components and capabilities of application control
- • Manage and configure the Carbon Black App Control server based on organizational requirements
- • Create policies to control enforcement levels and agent functionality
- • Implement rules to support the organization's security posture
- • Use the Carbon Black App Control tools to understand agent and server data

Audience

System administrators, security operations personnel including analyst and managers.
