VMware Carbon Black EDR Administrator

CODE: LENGTH: PRICE:

VMW VCBEDRA 8 Hours (1 day) kr 5,145.00

Description

This one-day course teaches you how to use the VMware Carbon Black® EDR™ product and leverage the capabilities to configure and maintain the system according to your organization's security posture and policies. This course provides an in-depth, technical understanding of the Carbon Black EDR product through comprehensive coursework and hands-on scenario-based labs.

Objectives

By the end of the course, you should be able to meet the following objectives:

- Describe the components and capabilities of the Carbon Black EDR server
- • Identify the architecture and data flows for Carbon Black EDR communication
- Describe the Carbon Black EDR server installation process
- · Manage and configure the Carbon Black EDR sever based on organizational requirements
- Perform searches across process and binary information
- Implement threat intelligence feeds and create watchlists for automated notifications
- Describe the different response capabilities available from the Carbon Black EDR server
- Use investigations to correlate data between multiple processes

Audience

System administrators and security operations personnel, including analysts and managers

Programme

- 1 Course Introduction
 - Introductions and course logistics
 - · Course objectives
- 2 Planning and Installation
 - • Hardware and software requirements
 - • Architecture
 - · Data flows
 - Server installation review
 - · Installing sensors
- 3 Server Administration
 - Configuration and settings
 - Carbon Black EDR users and groups
- 4 Process Search and Analysis
 - Filtering options
 - · Creating searches
 - · Process analysis and events

5 Binary Search and Banning Binaries

- · Filtering options
- · Creating searches
- • Hash banning

6 Search best practices

- • Search operators
- • Advanced queries

7 Threat Intelligence

- • Enabling alliance feeds
- • Threat reports details
- • Use and functionality

8 Watchlists

- • Creating watchlists
- • Use and functionality

9 Alerts / Investigations / Response

- • Using the HUD
- Alerts workflow
- • Using network isolation
- Using live response
