IBM FlashSystem Fundamentals

CÓDIGO:	DURACIÓN:	Precio:
SSFS1G	1 días	€900.00

Description

Enterprise data is growing exponentially. This data explosion is making commonly accepted practices of data management inadequate. Social, mobile, cloud, big data, and analytics are driving an explosion in data volumes and causing new challenges for data protection, disaster recovery, regulatory requirements, and standards for compliance. Data management has become one of the highest priorities of organizations today.

The IBM FlashSystem products are designed to help companies improve performance and reduce server sprawl, power consumption, cooling, and floor space requirements. All of this in turn can help clients save money, improve performance, and invest more in innovation. The IBM FlashSystem family can help you take control of your storage, harness existing data, and manage your IT infrastructure in a much more cloud-like fashion.

This course will aim to provide the basics of flash storage systems, specifically IBM's portfolio in this area.

Objetivos

- Demonstrate an understanding of flash storage from a technology standpoint
- Summarize the benefits of IBM FlashCore technology
- Recognize all the flash storage products from IBM and their benefits
- Summarize the architecture of IBM FlashSystem products and Spectrum Virtualize
- Demonstrate an ability to access and interact with the graphical interface of an IBM Spectrum Virtualize FlashSystem
- Summarize the various use cases of each of the FlashSystem products

Público

Enrollment in this course is not restricted. Typical students may include:• Customers• Technical IBM personnel• Business Partner technical personnel• IT consultants and architects

Requisitos Previos

You should have a basic understanding of data storage in enterprise environments. You may want to consider taking:

- SS01G: Introduction to Storage

Programa

Course Administration and Introduction (00:15) Unit 1: An Overview of Flash Storage (01:45) Unit 2: IBM Flash Storage Portfolio (01:00) Unit 3: An Overview of IBM Spectrum Virtualize Flash Storage (01:00) Unit 4: IBM FlashSystem 9200 (01:30) Unit 5: Video demonstrations (01:30) Video 1: Introduction and Monitoring Video 2: User Management Video 3: Create and manage Pools Video 4: Windows Host Attachment Video 5: Red Hat Enterprise Linux integration with IBM FlashSystem Video 6: Thin Provisioning and Volume Mirroring

Más información

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show: The current GTP list price
The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Fechas Programadas
