CommVault V11 New Features (4 TU)

CODE: **LENGTH:** **PRICE:**

COM_V11NF 8 Hours (1 day) €720.00

Description

Explore the exciting feature enhancements and additions to the next generation of Commvault® software. Learn about product changes and configuration options before upgrading your Commvault environment. This course focuses on feature changes including: security, indexing, deduplication, storage policies, and virtualization. This course includes the Commvault V11 Walkthrough supplemental guide and access to the V11 CVLab environment.

This course is offered as a instructor-led and as a instructor led on-line training

Audience

This course is intended for personnel who will be responsible for conducting day-to-day Commvault® software administrative activities.

Prerequisites

The Core Fundamentals and Implementation and Maintenance courses are recommended prior to attending this course.

Programme

Upon completion of this course you will be able to:

- Compare and contrast differences between user and group security, and the new role based security.
- Comprehend the concepts of Commvault V2 indexing structure.
- Learn Commvault deduplication enhancements including in memory DDB, four partition policies, and data verification.
- Configure global secondary policies for efficient tape management.
- Learn the new VSA methodology for VM load distribution for enhanced backup performance.

Test and Certification

Commvault Certified Professional 2020

- Commvault Professional Foundations exam
 - Commvault Professional Advanced exam
- Passing both is required for Professional certification*

Commvault Certified Engineer
