IBM Spectrum Protect 8.1.6 Implementation and Administration

CÓDIGO:	DURACIÓN:	Precio:
ZL1_TS617	5 días	€2,500.00

Description

IBM Spectrum Protect 8.1.6 is a data backup and recovery solution designed to help you manage your data retention, reduce the cost of storage, and provide appropriate recovery point objectives to meet any service level agreement. IBM Spectrum Protect offers improved efficiency and flexibility using object-based data management and policy driven retention. Please note that a later version of this course, TS618G, IBM Spectrum Protect V8.1.9 - Implementation and Administration, is available.

This five day course will focus on implementation and basic administration of a IBM Spectrum Protect environment. The hands-on lab exercises are performed on a Windows 2012 environment. The course materials include examples of AIX and Linux commands, when different from Windows.

Objetivos

- At the end of this course you should be able to:
- Describe the purpose of IBM Spectrum Protect
 - Install and configure the IBM Spectrum Protect components
 - Use the administrative and client interfaces
 - Discuss storage methodology options and create storage pool
 - Customize data movement and retention policies to meet business requirements
 - Configure the IBM Spectrum Protect database and storage pools for protection
 - Optimize client configuration
 - Perform backup, restore, archive and retrieve operations
 - Organize daily tasks required to protect the IBM Spectrum Protect environment
 - Automate and monitor client and administrative tasks and events

Público

Implementers and administrators who are new to IBM Spectrum Protect data management.

Requisitos Previos

Ability to navigate Windows 2012

A basic understanding of concepts regarding client/server relationships

Programa

Unit 1 Components and concepts Unit 2 Installation and configuration Unit 3 Interfaces and monitoring

Unit 4 Storage pools and devices Unit 5 Policy management, data movement, and exploration

Unit 6 Database and storage pool management Unit 7 Client configuration and management Unit 8 Client data protection

Unit 9 Daily operations and maintenance Unit 10 Schedules and reports

Más información

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price

- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Fechas Programadas

A petición. Gracias por [contactarnos](#).
