# Db2 11.1 Advanced Database Administration

CODE:	LENGTH:	PRICE:
CL464G	16 Hours (2 days)	€1,560.00

## Description

This course is designed to teach you how to:

- Perform advanced monitoring using the Db2 administrative views and routines in SQL queries.
- Manage the disk space assigned in Database Managed Storage (DMS) and Automatic Storage table spaces, including the activities of the rebalancer.
- Use SQL queries and Db2 commands to check the high water mark on table spaces and to monitor the rebalance operation.
- Utilize the REBUILD option of RESTORE, which can build a database copy with a subset of the tablespaces using database or tablespace backup images.
- Plan and execute the TRANSPORT option of RESTORE to copy schemas of objects between two Db2 databases.
- Create incremental database or tablespace level backups to reduce backup processing and backup image storage requirements.
- Implement automatic storage management for table spaces and storage groups or enable automatic resize options for DMS managed table spaces to reduce administration requirements and complexity.
- Describe the various types of database memory including buffer pools, sort memory, lock memory and utility processing memory.
- Adjust database or Db2 instance configuration options to improve application performance or processing efficiency.
- Implement Db2 Self Tuning Memory management for specific database memory areas.

## Objectives

Please refer to course overview

## Audience

This is an advanced course for DBAs and technical individuals who plan, implement, and maintain Db2 11.1 databases

## Prerequisites

- Perform basic database administration tasks for a Db2 database server, including using Db2 commands like BACKUP and RESTORE
- Utilize Structured Query Language (SQL) and be able to construct DDL, DML, and authorization statements
- These skills can be developed by taking:
  - CL207 Db2 11.1 Administration Workshop for Linux

## Programme

• Advanced Monitoring • Db2 Table Space Management • Db2 Database Memory Management • Database rebuild support • Db2 database and tablespace relocation • Db2 Incremental Backup

## Session Dates

On request. Please [contact us](#)

## Additional Information

This training is also available as onsite training. Please contact us to find out more.
