API Lifecycle Governance with IBM API Connect v2018

CÓDIGO:	DURACIÓN:	Precio:
WD509G	16 Hours (2 días)	€990.00

Description

This course is also available as self-paced virtual (e-learning) course *API Lifecycle Governance with IBM API Connect v2018* (ZD509G). This option does not require any travel.

This course teaches you how to configure the gateway, portal, and analytics services in Cloud Manager that are used by the API Connect infrastructure through all phases of the API lifecycle. You manage all aspects of the provider organization in the API Manager user interface to create, publish, version, and retire API artifacts such as Products, plans and APIs themselves. You also learn how to manage consumer organizations who use the APIs that are made available on the Developer Portal. You learn how to add members to the consumer organization that provides access to the APIs on the Developer Portal. You learn how the layout of the Developer Portal can be customized. Finally, you call the APIs on the secure gateway and you view the graphs and metrics of API usage.

For information about other related courses, see the IBM Training website: <http://www.ibm.com/training>

Objetivos

Please refer to course overview

Público

This course is designed for API Connect cloud administrators, lifecycle administrators, and application developers.

Requisitos Previos

Conceptual knowledge of APIs; for more information, see the resources at www.ibm.com/api/connect

Programa

- Configure services in Cloud Manager for an on-premises installation of API Connect V2018
- Identify the container runtime infrastructure that supports the API Connect services
- Create a catalog and Developer Portal
- Create a consumer organization
- Manage member roles and permissions in the Developer Portal
- Define APIs, Products, and plans in API Manager
- Identify the API lifecycle stages
- Stage, publish, version, migrate, deprecate, and retire Products and APIs
- Review and approve API lifecycle requests
- Customize the Developer Portal
- Create an application and subscribe to a plan
- Review API analytics in the Developer Portal
- Review analytics dashboards and visualizations in API Manager

Más información

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEurl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Fechas Programadas

A petición. Gracias por [contactarnos](#).
