CICS V5 Fundamentals

CÓDIGO:	DURACIÓN:	Precio:
WM851G	3 días	€1,375.00

Description

An updated version of this course is available. For more information, click *CICS V5.3 Fundamentals* (WM806G). In this entry-level course, you learn about the basic concepts and facilities of IBM CICS Transaction Server V5. After completing this course, you have the prerequisite knowledge for all of the follow-on CICS application and systems programming courses that IBM Training offers.

For information about other related courses, visit the IBM Training website:
<http://www.ibm.com/training>

Objetivos

- Describe the role of CICS in a business transaction environment
- Outline the flow of a typical CICS transaction
- Describe the functions that the primary CICS-supplied transactions perform
- Use the CICS master terminal transaction (CEMT) to query and control system resources
- Describe various ways of defining resources in CICS
- Use transactions that CICS supplies to define and manage resources
- Explain how CICS stores and manages resource definitions
- Describe the features of the CICS Explorer
- List the facilities that CICSplex System Manager provides
- Describe how CICS implements security
- List the recoverable resources of CICS
- Describe CICS transaction backout and forward recovery
- List the types of CICS startup and shutdown
- Describe the facilities that CICS provides for maintaining the integrity of data that is associated with CICS programs
- Describe CICS support for databases and Virtual Storage Access Method (VSAM) files
- Describe the functions of presentation, business, and data access logic
- Define the role and use of the COMMAREAs and CHANNELs in CICS applications
- Show how CICS Basic Mapping Support (BMS) supports the 3270 display
- Describe the syntax of a CICS command
- Explain how to handle exceptions
- Use the transactions that CICS supplies for testing and debugging
- Describe the facilities that are available in CICS for intercommunication

Público

This basic course is designed for IT personnel who have little or no CICS experience.

Requisitos Previos

You should have a basic knowledge of data processing **and** an IBM operating system. Some programming experience in a high-level language like COBOL **or** Java is helpful.

Programa

- Course introduction
- Introducing CICS

- CICS-supplied transactions
- Exercise: CICS-supplied transactions
- Defining CICS resources
- Exercise: Defining CICS resources
- Introducing the CICS Explorer
- Exercise: Using the CICS Explorer
- CICSplex System Manager overview
- CICS security
- Managing data integrity
- Startup and shutdown
- Exercise: Managing CICS resources
- Data access
- Exercise: Managing files and queues
- Designing CICS applications
- Exercise: Reviewing CICS BMS maps
- Writing CICS programs
- Testing and debugging CICS programs
- Exercise: Debugging applications by using CEDF
- CICS intercommunication
- Course summary

Más información

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show: The current GTP list price
The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Fechas Programadas
