Managing, Monitoring, and Subscribing APIs with IBM API Connect V5

CÓDIGO:	DURACIÓN:	Precio:
ZD502G	16 Hours	€750.00

Description

An updated version of this course is available. For more information, click *API Lifecycle Governance with IBM API Connect v2018 (ZD509G)*.

This course teaches you how to manage, monitor, and subscribe APIs with IBM API Connect V5. You learn how to manage and monitor the API Connect infrastructure through the Cloud Manager server. You learn how the API Manager server manages and enforces the API lifecycle. You also learn how to manage provider organizations and developer organizations, and how to customize the layout and design of the Developer Portal. Finally, the course explains how to analyze the API event record and statistics.

For information about other related courses, see the IBM Training website: http://www.ibm.com/training

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Objetivos

- Manage and monitor an on-premises installation of API Connect V5
- Manage developer organizations and registries
- Create a catalog and Developer Portal
- Customize the Developer Portal
