IBM Algorithmics Introduction to Algo Credit Manager (v5.3) SPVC

CODE:	DURÉE:	PRIX H.T.:
G3064G	16 Hours	€600.00

Description

Contains: PDF course guide, as well as a lab environment where students can work through demonstrations and exercises at their own pace.

This course will introduce the audience to the concepts of Algo Credit Manager (ACM) and explain the various options to view risk, exposure, mitigation, and limits. It will highlight the process of setting up counterparty structures, views of the own bank structures, and aggregation of risk across various criteria.

Objectifs

Please refer to course overview.

Audience

This course is intended for relationship managers, credit managers, business division managers, risk managers and business analysts who will be working on the implementation.
