IBM Control Desk 7.6 Service Request Management Fundamentals

| | | |
|--------------|-------------------|---------------|
| CODE: | LENGTH: | PRICE: |
| TP362G | 24 Hours (3 days) | €2,340.00 |

Description

This course introduces you to the fundamental concepts of managing a Service Desk using IBM Control Desk. Through instructor-led discussion, demonstrations and hands-on labs, you learn how to create and resolve service requests, incidents and problems. You also learn to manage a service catalog, obtain user feedback through surveys, and generate reports.

Objectives

You should be able to perform the following tasks:

- Describe the features and applications of the Service Desk and Service Catalog
- Explain the purpose and goals of request fulfillment, incident management, and problem management processes
- Handle an issue from initial report to resolution using the Service Desk
- Follow an offering from shopping to fulfillment using the Service Catalog

Audience

This course is designed for anyone who implements or uses IBM Control Desk for Service Desk and Service Catalog functions, or anyone working with Service Requests, Incidents or Problems.

Prerequisites

Before taking this course, you should have the following skills:

- At a minimum, intermediate computer skills
- The ability to visualize complex scenarios

Programme

Overview

- Service Request Management challenges
- Industry standards
- Tivoli's process automation engine
- IBM Control Desk

Service management

- IBM Service Management overview
- Service operation
- Support levels overview
- Tickets overview
- Working with other management processes

The Service Desk

- Service Desk overview
- The Service Requests application

- Looking for new tickets
- Creating new service requests
- Filling out the service request
- Time management
- Information locations overview
- Searching for information
- Fulfilling the request
- Communications
- Documenting the solution
- Resolving tickets
- The Incidents application
- Creating the incident ticket
- Filling out the incident ticket
- Resolving the incident
- The Problems application
- Creating a problem ticket

Service requests, incidents, and problems

- Process flow
- Request Fulfillment roles
- Simple information request scenario
- Solution lookup scenario
- Solution creation scenario
- Complex issue scenario
- Incident management overview
- Global issues
- Event management
- Incident roles
- Incident management scenario
- Problem management overview
- Problem management roles
- Problem management scenario

The Service Catalog

- Service Catalog overview
- The Service Catalog process
- Scenario

Self-service

- Overview
- Role
- Self-service tools
- Scenarios
- Navigating the Service Portal

Workflows

- Overview
- Workflow process maps
- Task assignments
- Routing workflow
- Workflow actions
- Scenarios

Service level agreements

- Overview
- Commitments
- Escalations
- Applying service level agreements

Surveys

- Measuring satisfaction
- Survey forms
- Creating a survey
- Sending surveys

Reporting

- Overview
- Running reports
- Reports

Further Information

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEenrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Session Dates

On request. Please [Contact Us](#)

Additional Information

[This training is also available as onsite training. Please contact us to find out more.](#)
