# IBM Cognos TM1: Create Scorecards (V10.2) - SPVC

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
J1259G	8 Hours	€300.00

## Description

This is the self paced training version of IBM Cognos TM1: Create Scorecards classroom course. IBM Cognos TM1: Create Scorecards is a one-day self paced course that teaches scorecard developers how to create scorecarding solutions in TM1. Through a series of lectures and hands-on exercises, participants will learn how to create all of the necessary scorecarding objects such as metrics cubes, diagrams, and maps, deploy the solution to the Web for end-user consumption, and create an engaging dashboard presentation for the solution.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.  
<http://www.ibm.com/training/terms>

## Objectifs

Please refer to Course Overview for description information.

## Audience

This intermediate course is for Scorecard Developers.

## Prérequis

You should have:

- Knowledge of your business requirements
- Experience using the Windows operating system and a Web browser

## Programme

### Introduction to Scorecarding in IBM Cognos TM1

- Explain the purpose of scorecarding
- Identify TM1 components and objects used for scorecarding
- Explain the process of creating a scorecarding solution in TM1

### Create a Metrics Cube

- Create a new TM1 server
- Create dimensions manually or by importing
- Create and populate a metrics cube

### Visualize Relationships using Diagrams and Maps

- Edit an impact diagram
- Create a strategy map
- Create a custom diagram

### Make Scorecards Available

- Create and deploy a scorecarding application

- Apply security to a scorecarding application

### **Create Dashboards**

- Create a dashboard layout for a scorecarding application
- Publish the layout to make it available to users

### **Link Cubes Together**

- Create links to share data between cubes
- Enable drill-through so users can view detailed data linked in from source cubes

### **Dates de session**

Sur demande. [Merci de nous contacter](#)
