Customize the IBM Case Manager Client User Interface (V5.3.2)

CODE:	LENGTH:	PRICE:
F2949G	8 Hours	€580.00

Description

Contains PDF course guide, as well as a lab environment where students can work through demonstrations and exercises at their own pace.
In this course, you will customize IBM Case Manager Client without using much code. In an IBM Case Manager system, you will create pages with custom layout and implement new actions by configuring buttons and menu items. You will use the Calendar widget to track case events and a Script Adapter widget to transform the data. You will learn how to wire two widgets together to establish communication, customize views for case properties including business objects, specify viewers for documents, and implement External Data Services to create dependent choice lists.
If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Objectives

Create custom pages and use Free Form page layout Customize toolbars and menus to add actions Configure a Calendar widget Wire two Widgets together Use Script Adapter widget Customize properties views Specify viewers for file types Implement External Data Services
