IBM Cognos Transformer Design OLAP Models (v10.2.2) - SPVC

| | | |
|--------------|---------------|-------------------|
| CODE: | DURÉE: | PRIX H.T.: |
| J2A82G | 32 Hours | €1,200.00 |

Description

This course provides developers with knowledge of OLAP modeling concepts using IBM Cognos Transformer. Participants will learn how to design, build, and maintain PowerCubes for use in IBM Cognos BI so that end users can easily analyze data.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

Objectifs

Please refer to course overview.

Audience

- Developers who design OLAP models for use in IBM Cognos B

Prérequis

- Understand the business need for ad hoc queries and analysis
- Experience gathering requirements and analyzing data
- IBM Cognos Report Studio: Author Professional Reports - Fundamentals (Recommended)

Programme

- Overview of IBM Cognos BI
- Transformer Fundamentals
- The Transformer Development Process
- Data Sources in Transformer
- Building a Model
- Considerations for Designing Successful PowerCubes
- The Time Dimension
- Relative Time
- Use Multiple Data Sources
- Uniqueness
- Working with Measures
- Allocated Measures
- Currency Conversion
- Alternate Hierarchies within a Dimension
- Advanced Dimensional Modeling
- Customize Cube Content
- Examine Security
- Applying Security
- Maintain Models and PowerCubes
- Considerations for Drill Through
- Optimize PowerCubes
- Partition PowerCubes
- Identify Common Data Structures

Dates de session

Sur demande. [Merci de nous contacter](#)

Informations Complémentaires

Cette formation est également disponible sous forme de formation sur site. Veuillez nous contacter pour en savoir plus.
