# Introduction to IBM i for New Users

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
OE98G	1 Jours	€780.00

## Description

In this classroom course, you will learn basic concepts and skills you need to be productive users on Power Systems with IBM i. With plenty of hands-on lab exercises, we show everything from signing onto the available user interfaces; green screen environment and IBM Navigator for i.

You will learn how objects are managed on the system and how you display these objects. You will learn to use control language (CL) commands (fast path) and how to work with and manage messages on the system. Students will also learn how the system manages work and how you manage your printouts. Lastly, students will also get a basic overview of security.

## Objectifs

After completing this course, you should be able to:

- Explain the functions supported by IBM i operating systems
- Explain Power System with IBM i models and generations
- Explain which applications are supported
- Sign on / off the system
- Use the display station keyboard

## Informations supplémentaires

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

The current GTP list price

The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.
