## Introduction to IBM i for New Users

**CODE:**        **DURÉE:**        **PRIX H.T.:**

OE98WG        8 Hours        €150.00

### Description

In this course, you will learn basic concepts and skills you need to be productive users on Power Systems with IBM i. In this course you will learn everything from signing on to the available user interfaces; green screen environment, and IBM Navigator for i. You will learn how objects are managed on the system and how you display these objects. You will learn to use control language (CL) commands (fast path) and how to work with and manage messages on the system. We will also address how the system manages work and how you manage your printouts. This course also provides a basic overview of security.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

### Objectifs

- Explain the functions supported by IBM i operating systems
- Explain Power System with IBM i models and generations
- Explain which applications are supported
- Sign on and off the system from a display station and IBM Navigator for i
- Use the display station keyboard
- Use the online help that is available
- Use the different interfaces available for IBM i
- Understand how objects are managed
- Enter control language (CL) commands
- Send and receive messages and work with message queues
- Manage work and output
- Explain basic security

### Audience

This basic course is intended for new end users employed in a data processing environment who are new to Power Systems with IBM i.

### Prérequis

There are no prerequisites for this course.

### Programme

- Welcome
- Unit 1 - Introduction and overview to IBM i
- Unit 2 - Using 5250 emulation interface
  - Demo 1- Using 5250 emulation interface
- Unit 3 - Using IBM Navigator for i
  - Demo 2 - Using IBM Navigator for i
- Unit 4 - Using the messages function on IBM i
  - Demo 3 - Using the messages function on IBM i
- Unit 5 - Using CL commands on IBM i
  - Demo 4 - Using CL commands on IBM i

- Unit 6 - Managing objects on IBM i
  - Demo 5 - Object management on IBM i
- Unit 7 - Managing your work on IBM i
  - Demo 6 - Tracking jobs and printouts on IBM i
- Unit 8 - IBM i security overview
- Unit 9 - Additional education
