# IBM Cúram SPM Development Environment 7.X: Expert Arena

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
ZL1_9D77	1 day(s)	£380.00

## Description

This Expert Arena (remote lab) provides you with on-demand access to the IBM Cúram Social Program Management (SPM) application development environment (ADE).

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

## Objectives

Using this environment, learners will be able to do the following:

- Try out features of the Cúram SPM ADE to create simple end-to-end solutions using the Course Workshop.
- Create solutions for exercises from the IBM Cúram SPM for Developers courses.
- Customize out-of-the-box applications compliantly using the standard Cúram SPM development installation.
- Perform gap analysis within Cúram SPM to determine the changes required for customizations.
- Prepare for IBM Cúram SPM V7.X, Application Development certification.

## Audience

This Expert Arena is aimed at developers and technical architects. It is particularly useful for those preparing for IBM Cúram V7.X, Application Development certification, or for anyone who wants to try out the development features of Cúram SPM 7.X.

## Prerequisites

Learners should have completed IBM Cúram SPM technical training:

- IBM Cúram SPM for Developers (ADE) 7.X (9D73G) and IBM Cúram SPM for Developers (Customization) 7.X (9D74G), or
- Any previous version of the IBM Cúram SPM developer courses.

## Programme

The environment includes the following components:

- IBM Cúram SPM Platform, which includes the ADE
- IBM Cúram SPM application modules
- The lightweight Course Workshop environment
- Standard third-party tools, including H2 as the development database and Eclipse as the integrated development environment (IDE).

## Further Information

This environment is used in the IBM Cúram SPM for Developers (ADE) 7.X (9D73G) and IBM Cúram SPM for Developers (Customization) 7.X (9D74G) courses. The sandbox environment includes a lightweight Cúram development installation, the Course Workshop, and the standard Cúram development installation. The Course Workshop allows you to experiment with development features quickly and safely.

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEnrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

## **Session Dates**

On request. Please [contact us](#)

## **Additional Information**

[This training is also available as onsite training. Please contact us to find out more.](#)
