IBM Cognos Planning Explore and Contribute to Plans (V8.4 10.1)

CODE: **DURÉE:** **PRIX H.T.:**

P8103G 8 Hours €95.00

Description

IBM Cognos WBTs are interactive multimedia modules that are intuitive and instructionally sound. Through visual content and audio, product demonstrations, hands-on learning activities, and simulation-based assessments and quizzes, the modules guide the students to mastering an IBM Cognos application.

The IBM Cognos Planning: Explore and Contribute to Plans (V10.1) WBT provides you with a solid understanding of the Planning Contributor Web application. At the end of the course, you will be able to access and navigate your corporate Contributor Workflow application, know how to efficiently enter data into the Web grid and how to save and submit the data. You will learn about the planner and the reviewer roles in Planning Contributor, how to manage workflow, and how to take the grid offline. You will also learn how to import data to the grid and export data to Excel.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.
