Foundations of Storage

CODE: **DURÉE:** **PRIX H.T.:**

SS00DG 8 Hours €300.00

Description

This is an exciting time to explore storage. Big data analytics, mobile and social applications are creating a lot of data. Data stored in your data center or the cloud, needs to be delivered, managed and retained. Optimizing data storage reveals insights to deliver competitive advantages.

IBM Spectrum Storage, Virtualization, High Availability and the Cloud are areas to explore. This digital class, SS00DG is a special subset to SS01G the foundational course for the IBM Storage course portfolio. This course will explore storage solutions for the Cloud, details on the IBM Spectrum family, and tape and disk product families.

There are no labs for this course.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

Objectifs

Upon completion of this course you should be able to:

- Differentiate between the features of the Spectrum Storage Suite of software
- Differentiate the types of the disk/all-flash storage solutions
- Compare the types of the tape storage solutions
- Clarify the various Cloud storage considerations

Audience

Participants of this course will include personnel who have the desire to learn about storage and IBM related storage products.

Prérequis

None

Programme

Unit 1. IBM Spectrum Storage
Unit 2. IBM System Storage Disk Systems and Flash Based Systems
Unit 3. IBM System Storage Tape Systems
Unit 4. IBM Storage and Cloud

Dates de session

Sur demande. [Merci de nous contacter](#)
