Introduction to IBM Spectrum Accelerate

CODE:	DURÉE:	PRIX H.T.:
SSC30DG	16 Hours	€150.00

Description

This digital course will provide an understanding of IBM Spectrum Accelerate, an important, scale-out, software-defined storage product. It has been written to teach everything from the basics of installing IBM Spectrum Accelerate to performing advanced administrative tasks using it. The course will attempt to clarify the concepts involved in planning, deploying, and implementing IBM Spectrum Accelerate. It will cover the basics of software-defined storage from a technology standpoint as it is today, the product architecture of IBM Spectrum Accelerate, explain its major features and benefits while showing how to implement the solution. It will also cover configurations that an administrator must be aware of by showing multiple use cases.
If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Objectifs

By the end of the course you should be able to:
• Demonstrate an understanding of software-defined storage from a technology standpoint
• Summarize IBM's Spectrum range of products and their benefits
• Summarize the architecture of IBM Spectrum Accelerate
• Deploy IBM Spectrum Accelerate in an existing infrastructure
• Demonstrate an ability to access and interact with the graphical and command line interfaces of the product
• Summarize the various tasks that can be performed on block storage using IBM Spectrum Accelerate by understanding various use cases
• Summarize the procedure for troubleshooting issues related to IBM Spectrum Accelerate

Audience

Enrollment in this course is not restricted. Typical students may include:
• Customers
• Technical IBM personnel
• Business Partner technical personnel
• IT consultants, consultants and architects

Prérequis

The following courses are required prior to this course: None

Programme

Day 1:
Course Administration and Introduction
Unit 1: Introduction to IBM Spectrum Accelerate
Unit 2: Planning for IBM Spectrum Accelerate
Agenda Unit 3: IBM Spectrum Accelerate Implementation
Exercise period 1:
Exercise 1. Installation of IBM Spectrum Accelerate
Exercise 2. Navigation and user management in IBM Spectrum Accelerate Day 2:
Exercise 3. Managing capacity
Exercise 4. Managing Snapshots and Consistency Groups
Unit 4: IBM Spectrum Accelerate Administration
Unit 5: IBM Spectrum Accelerate Troubleshooting

Exercise period 2:
Exercise 5. Managing host attachments
Exercise 6. Backup and Restore Using Snapshots
Exercise 7. A Walk-through of Mirroring with IBM Spectrum Accelerate
Exercise 8. Multi-tenancy and Troubleshooting

Dates de session
