Microsoft Azure Administrator, Deployment

CÓDIGO: **DURACIÓN:** Precio:

MCS AZ100 32 Hours (4 días) A consultar

Description

This five-MOC packaged set aligned to Azure Exam: Azure Administrator, Deployment contains courseware that helps prepare students for Exams AZ-100. Passing this exam is required to earn the Azure Administrator, Deployment certification.

Courses in this packaged set:

•AZ-100T01: Manage Subscriptions and Resources

- •AZ-100T02: Implementing and Managing Storage
- •AZ-100T03: Deploying and Managing Virtual Machines
- •AZ-100T04: Configuring and Managing Virtual Networks
- •AZ-100T05: Manage Identities

Público

- Azure Administrators manage the cloud services that span storage, networking, and compute cloud capabilities, with a deep understanding of each service across the full IT lifecycle.
- You take end-user requests for new cloud applications and make recommendations on services to use for optimal performance and scale, as well as provision, size, monitor and adjust as appropriate.
- This role requires communicating and coordinating with vendors.
- Azure Administrators use the Azure Portal, and as you become more proficient you will use PowerShell and the Command Line Interface.
