#### **Description**

Learn how to successfully implement and tune Information Management System (IMS) databases with IMS logical relationships. Examine in detail the various pointer options. Practice these skills in intensive machine-lab exercises.

#### **Objectives**

- Code the DBDs and PSBs for databases involved in logical relationships, including those using recursive data structures
- Use IMS utilities to load and reorganize logically related databases
- · Choose logical relationship update rules based upon application processing requirements
- · Identify DBD coding parameters that are critical to the performance of logically related databases
- Interpret the results of logical relationship implementation choices using the reports provided by the IMS Monitor

#### **Audience**

People responsible for designing, implementing, maintaining, or tuning IMS databases using logical relationships.

#### **Prerequisites**

You should have at least four months of experience using IMS and should be able to:

- • Use TSO/ISPF or PDF
- Demonstrate basic knowledge of:
  - OS/VS Job Control Language
  - VSAM access methods service utilities
  - DL/I application programming techniques
- Describe the characteristics and storage format of HISAM, HIDAM and HDAM databases and code their DBDs
- Understand the IMS DB Monitor and use its reports to resolve database performance concerns

These skills can be developed by attending:

- IMS Physical Organization of Databases Workshop (CM22)
- IMS Database Performance and Tuning Workshop (CM30)

#### **Programme**

- · Introduction to Logical Relationships
- Unidirectional Logical Relationships
- Unidirectional Logical Data Structures
- Bidirectional Logical Relationships
- · Bidirectional Logical Data Structures
- Database Load and Reorganization
- · Recursive Structures
- ISRT Rules and Exercise
- Logical Relationship Performance
- Logical Relationship Tuning

• Design and Change Considerations

### **Session Dates**

På anmodning. Kontakt os venligst

## **Yderligere Information**

Denne træning er også tilgængelig som træning på stedet. Kontakt os for at finde ud af mere.
