IBM TRIRIGA 10.3 Capital Projects

CODE: **DURÉE:** **PRIX H.T.:**

TA521G 24 Hours (3 Jours) €2,100.00

Description

In this three-day course, you learn to use the IBM TRIRIGA application tools to manage funding sources, programs, and capital projects through lecture, hands-on exercises, and business scenarios that include the application concepts and business processes. You learn to manage and track the projects of your organization with TRIRIGA.

Objectifs

- Create a capital project
- Create schedule tasks
- Use a project template
- Create cost codes
- Organize documents
- Review designs
- Create and manage project budgets
- Procure materials and services
- Manage issues and changes
- Track the project administration
- Ensure proper project closeout
- Create programs with child programs or projects

Audience

This intermediate-level course is for anyone who uses the system for any of the following tasks:

- Create project and budget
- Organize and review documents
- Manage procurement and payments
- Track and report on project progress

Prérequis

You should have:

- knowledge on Basic IBM TRIRIGA operation
- familiarity with the Microsoft windows environment **or** equivalent

Programme

- Chapter 1: Capital project management
- Chapter 2: Setting up the project
