IBM TRIRIGA 10.3 Application Platform I

CODE:	DURÉE:	PRIX H.T.:
TA611G	40 Hours (5 Jours)	€3,500.00

Description

This course provides an introduction to application development on the IBM TRIRIGA Application Platform. The course provides entry-level training for application developers and is designed for people who have little familiarity with the product.

Objectifs

- Perform moderate-level IBM TRIRIGA application customizations by using the platform
- Create and modify business objects (BOs) by using the Data Modeler
- Create and modify user interfaces by using the Form Builder tool
- Define lists and classifications
- Import data by using the Data Integrator
- Implement business logic with by using workflows
- Create reports and queries by using the Report Manager
- Export a copy of your work by using the Object Migration tool

Audience

This basic course is for anyone with an interest in learning to develop applications in IBM TRIRIGA.
