IBM Maximo Asset Management 7.5 Fundamentals

CODE:	DURÉE:	PRIX H.T.:
ZL1_TR571	4 Jours	€2,775.00

Description

Learn the powerful features and functions available in IBM Maximo Asset Management. This hands-on course introduces the fundamental concepts and setup considerations of the various business areas supported by Maximo. Learning activities include lecture, demonstration, and labs covering a wide variety of applications, processes, and interrelationships within Maximo. This course can help you make informed business decisions with the design and planning of their implementation. Consultants can gain a foundation upon which to build their product knowledge and skill set, and to work with clients to obtain optimal value from the product.

Objectifs

- Query and retrieve data
- Describe the asset management life cycle
- Enter core data elements and data structures
- Describe options that are available for various applications
- Describe and use the different Maximo applications and functions as they relate to business processes

Informations supplémentaires

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show: The current GTP list price
The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.
