AirWatch Enterprise Mobility: Configure and Manage - On Demand

CODE:

VM-AW-MANAGE-EL

LENGTH:

240 Hours

PRICE:

\$1,700.00

Description

This course provides insight into the current challenges of enterprise mobility and how AirWatch can help you solve those challenges. You will gain a comprehensive view of all AirWatch® Enterprise Mobility Management™ solutions, key device platforms, and an overview of AirWatch architecture. This course provides the foundational skills necessary to manage the AirWatch platform.

Objectives

Enroll devices in your enterprise environment, configure and update device settings over-the-air, and secure a diverse fleet of mobile devices

Select the email deployment strategy that best fits your business and security requirements

Manage internal, public, and purchased applications across managed devices

Enable secure mobile access to content anytime, anywhere while protecting sensitive content

Gain insight into major platforms, including iOS, Android, and Windows Phone devices

Audience

AirWatch Administrators, Solutions Architects, Solutions Engineers, Sales Engineers, Consultants, Support or Service Desk, Installers or Implementation Specialists

Prerequisites

None
