VMware AirWatch: Integrating with VMware Identity Manager

CODE:	LENGTH:	PRICE:
VM-AW-VIDMAN-OE	8 Hours (1 day)	\$850.00

Description

This one-day course focuses on the skills you need to effectively implement VMware Identity Manager™ in your VMware AirWatch® environment. Practical, hands-on labs provide a real-world environment. You will also learn how to use VMware Identity Manager to enable single sign-on access to mobile applications.

Objectives

By the end of the course, you should be able to meet the following objectives:

- Explain the security benefits of incorporating VMware Identity Manager into a VMware AirWatch environment
- Install a cloud or on-premises instance of VMware Identity Manager
- Enable single sign-on access to mobile applications

Audience

VMware AirWatch administrators, solutions architects, solutions engineers, sales engineers, consultants, installers, and implementation specialists

Prerequisites

VMware AirWatch Associate Accreditation: Enterprise Mobility or equivalent knowledge required

Programme

- 1 Identity and Access Management Fundamentals
- 2 Prepare for Installation
- 3 Install VMware Identity Manager
- 4 Perform Postinstallation Configuration and Verification
- 5 Install the VMware Identity Manager Connector
- 6 Mobile Application Management Fundamentals

Session Dates

On request. Please [Contact Us](#)
