# Automating Tasks Using IBM Robotic Process Automation with Automation Anywhere

<b>CODE:</b>	<b>DURÉE:</b>	<b>PRIX H.T.:</b>
ZB501G	40 Hours	€1,500.00

## Description

An updated version of this course is available. For more information, click *Automating Tasks Using IBM Robotic Process Automation with Automation Anywhere* (ZB502G).

This course is also available as classroom course *Automating Tasks Using IBM Robotic Process Automation with Automation Anywhere* (WB501G).

This course is intended to teach the skills that are needed to work with the IBM Robotic Process Automation with Automation Anywhere Enterprise Client and Control Room to develop and manage bots.

For information about other related courses, see the IBM Training website: [ibm.com/training](http://ibm.com/training)

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

## Objectifs

After completing this course, you should be able to:

- Describe the IBM Robotic Process Automation with Automation Anywhere Control Room and Enterprise Client
- Work with the various Enterprise Client Recorders and commands to create and manage bots

## Audience

This course is intended for developers who use IBM Robotic Process Automation with Automation Anywhere

## Prérequis

- Practical knowledge of data structures
- Understanding of SQL syntax
- Basic understanding of web services
- Experience with modern programming techniques

## Programme

Course introduction  
 Introducing robotic process automation and bots  
 Introducing IBM Robotic Process Automation with Automation Anywhere  
 Exercise: Exploring the Control Room  
 Introducing the Enterprise Client  
 Exercise: Creating a basic bot  
 Working with variables, loops, and strings  
 Exercise: Writing data from a text file to an Excel spreadsheet  
 Working with the Smart Recorder and the Object Cloning command  
 Exercise: Automating data entry to a business application and a database  
 Working with emails, conditional logic, and triggers  
 Exercise: Creating a bot to sum check declines, query a database, and send an email  
 Working with email and PDFs  
 Exercise: Creating a bot to evaluate data from a PDF and send an email  
 Creating interactive bots  
 Exercise: Creating an interactive bot to check values in disparate systems  
 Introducing MetaBots  
 Exercise: Creating a login MetaBot  
 Working with web services  
 Exceptions and error handling  
 Exercise: Working with web services and error handling  
 Hardening bots against exceptions  
 Exercise: Hardening the Account Opening bot  
 Bot management and reporting  
 Exercise: Managing bots  
 Administering bots through the Control Room  
 Exercise: Administering bots in the Control Room  
 Course summary

## Informations supplémentaires

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEenrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

## Dates de session

Date	Lieu	Time Zone	Langue	Type	Garanti	PRIX H.T.
28 May 2023			English	Self Paced Training		€1,500.00
