IBM BigInsights Overview

CODE:	LENGTH:	PRICE:
K03001G	8 Hours	kr 5,820.00

Description

This course is designed to introduce learners to IBM BigInsights. You will review components of IBM BigInsights starting with an overview of the open source components within the IBM Open Platform with Apache Spark and Apache Hadoop. The course will also explore Big SQL and Text Analytics and how they can be used for big data analytics. Platform with Apache Hadoop and Apache Spark. Then the course will cover how Big SQL and Text Analytics can be used for big data analytics.
Note: Guided eLearning is a self-paced offering which includes web-based content for self-study and videos (including audio) that demonstrate activities.
If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms
