- Execute common Linux commands
- Manage Linux processes

Audience

Anyone who needs to learn to use the Linux operating system.

Prérequis

Students attending this course should be familiar with basic Information Technology (IT) concepts and the role of an operating system.

Programme

- Introduction to Linux
- Using the system
- Linux documentation
- Files and directories
- Using files
- File permissions
- Shell basics
- Using shell variables
- The vi Editor
- Processes

Informations supplémentaires

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price

- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Dates de session

Sur demande. [Merci de nous contacter](#)
