IBM Enterprise Records 5.1 - Automate Declaration

CODE:	LENGTH:	PRICE:
F182G	8 Hours (1 day)	£650.00

Description

Your company wants to automate records declaration for your IBM Enterprise Records system. In this course, you learn to configure automatic record declaration using two different methods: event subscriptions and workflow. You work with a fully functioning IBM Enterprise Records system to practice the skills required for automating record declaration.

Objectives

- Acquire the knowledge and skills necessary to automate record declaration on an Enterprise Records system

Audience

This intermediate course is for anyone who administers an IBM Enterprise Records system.

Prerequisites

Programme

- Configure an event action for record declaration
- Create an event subscription to automatically declare a record
- Create a workflow that declares a record without user intervention
- Create a workflow subscription to launch a record declaration workflow

Further Information

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Session Dates

On request. Please [Contact Us](#)

Additional Information

This training is also available as onsite training. Please contact us to find out more.
