IBM Case Foundation 5.2.1 - Workflow Design Essentials

CODE:	**LENGTH:**	**PRICE:**
ZL1_F239	8 Hours (1 day)	£595.00

Description

This course trains:

- The skills that are needed for planning, designing, creating, testing workflow solutions in a development environment.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Objectives

After completing this course, you should be able to:

- Create a workflow definition using Process Designer.
- Use workflow properties and step parameters in a workflow definition.
- Build simple and complex expressions to calculate property values and direct work.
- Use a variety of step types to build a workflow definition.
- Use subscriptions to launch workflows automatically from an initiating attachment.

Audience

- This course is for workflow authors who are responsible for planning, designing, creating, testing workflow solutions in a development environment.

Prerequisites

Prerequisites

- Familiarity with Windows 2008 operating systems.General knowledge of P8 Platform security concepts.
- General workflow terminology:
    - Workflow
    - Workflow definitions
    - Queues
    - Rosters.
- Start a P8 Platform system.
- Familiarity with P8 Platform administration interfaces, including:
    - Administration Console for Content Platform Engine
    - IBM Content Navigator
    - Process Configuration Console
    - Process Designer

Programme

Create a workflow definition

Configure workflow properties

- Add workflow properties to a workflow definition
- Add step properties to a step
- Validate and launch a workflow
- Identify system fields.

Explore workflow step types

- Select step types for a scenario
- Use system steps in a workflow

Build expressions

- Use Expression Builder
- Build expressions to calculate property values
- Assign property values

Launch workflows with subscriptions

- Create a workflow that launches from an initiating attachment
- Create a workflow subscription that automatically launches a workflow.
- Map properties from a document to workflow data fields.

Session Dates

On request. Please Contact Us

Additional Information

This training is also available as onsite training. Please contact us to find out more.
