Managing Decisions in IBM Operational Decision Manager V8.9

CODE:	LENGTH:	PRICE:
ZB401G	5 days	\$1,750.00

Description

This course is also available as classroom course *Managing Decisions in IBM Operational Decision Manager V8.9 (WB401G)*. This course introduces business analysts to IBM Operational Decision Manager V8.9. You learn the concepts and skills that are necessary to capture, author, validate, and manage business rules with Operational Decision Manager.

IBM Operational Decision Manager provides a complete platform for managing business rules by helping to automate and govern decisions across processes and applications. This course focuses on the iterative nature of working collaboratively with business policy experts and development teams on rule projects. Through instructor-led presentations and hands-on lab exercises, you learn about the core features of Operational Decision Manager. You also receive intensive training in modeling business rule vocabulary, rule discovery, rule authoring, and rule governance and management. The course uses realistic scenarios and a case study to illustrate the principles and good practices for discovering, analyzing, and authoring business rules.

The lab environment for this course uses Windows 2012 Server R2 Standard.

For information about other related courses, see the IBM Training website: ibm.com/training

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

Objectives

- Describe the benefits of implementing an Operational Decision Manager solution
- Identify the main user roles and tasks that are involved in designing and developing an Operational Decision Manager solution
- Explain modeling concepts and the UML notation that is relevant to modeling for business rules
- Define and implement object models for business rules
- Set up the rule authoring environment in Designer by working with decision services and synchronizing across development and business environments
- Transform business policy into rule statements and make sure that they form a complete and coherent set of rules
- Use the Operational Decision Manager rule editors to author business rules and decision tables
- Run tests and simulations in the Decision Center Business console to validate decision logic and rule changes
- Work with Decision Center decision service administration tools
- Manage user access and permissions in the Business console
- Use Operational Decision Manager tools to support decision governance

Audience

This course is designed for business analysts.

Prerequisites

- Experience with identifying and defining business policies and rules
- A basic understanding of business models

Programme

Course introduction
 Introducing IBM Operational Decision Manager V8.9
 Exercise: Operational Decision Manager in action
 Modeling for business rules
 Exercise: Building the model on paper
 Exercise: Implementing the model
 Understanding decision services
 Exercise: Setting up a decision service
 Working with the BOM
 Exercise: Working with the BOM
 Introducing Decision Center
 Exercise: Exploring the Decision Center Business console
 Introducing rule authoring
 Exercise: Understanding the case study
 Discovering and analyzing rules
 Exercise: Discovering rules
 Exercise: Analyzing rules
 Working with conditions in rules
 Exercise: Working with conditions in rules
 Working with definitions in rules
 Exercise: Working with definitions in rules
 Writing complete rules
 Exercise: Writing complete rules
 Authoring decision tables
 Exercise: Authoring decision tables
 Exercise: Authoring rules: Putting it all together
 Running tests and simulations
 Exercise: Running tests and simulations in the Business console
 Working with Decision Center administrative tools
 Exercise: Working with management features in Decision Center
 Exercise: Managing user access in Decision Center
 Introducing decision governance
 Exercise: Working with the decision governance framework
 Course summary

Further Information

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show: The current GTP list price The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Session Dates

Date	Location	Time Zone	Language	Type	Guaranteed	PRICE
13 Aug 2022			English	Self Paced Training		\$1,750.00
