Getting Started with IBM Spectrum Accelerate, IBM FlashSystem A9000/R and IBM Hyper-Scale Manager

CODE:	LENGTH:	PRICE:
ZL1_SSFS6D	8 Hours	£85.00

Description

This course will cover the basics of software-defined storage, the product architecture of IBM Spectrum Accelerate (as software), describe system specifications of IBM FlashSystem A9000/R, and basics of IBM Hyper-Scale Manager and IBM Hyper-Scale Mobility.

Objectives

Upon completion of this course you should be able to:• Identify the key characteristics of a software-defined storage environment
• Summarize the key components of IBM Spectrum Accelerate and their functions
• Recognize the features of IBM FlashSystem A9000/R• Identify the benefits of IBM Hyper-Scale Manager
• Summarize how IBM Hyper-Scale Mobility works
Completion of course materials will qualify you to take the IBM Hyper-Scale Manager Essentials open badge quiz.

Audience

This web based training with lecture and simulated exercises is for those individuals who are assessing and/or planning to deploy IBM Flash Storage solutions. Enrollment in this course is not restricted.
Typical students may include:• Customers• Technical IBM personnel• Business Partner technical personnel
• IT consultants and architects

Prerequisites

None

Programme

Identify the key characteristics of a software-defined storage environment
Summarize the key components of IBM Spectrum Accelerate and their functions
Recognize the features of IBM FlashSystem A9000/R
Identify the benefits of IBM Hyper-Scale Manager
Summarize how IBM Hyper-Scale Mobility works

Session Dates

On request. Please Contact Us

Additional Information

This training is also available as onsite training. Please contact us to find out more.
