Maximo 7.6 Managing Storeroom Inventory

CODE: **LENGTH:** **PRICE:**

W0104G 4 Hours Free

Description

This course discusses inventory management practices for MRO using Maximo. Topics include the various inventory type of locations, ABC Inventory Analysis, cycle counts, transactions, issuing and transferring items, costing methods, reorder theory and setup and reservations for work. The course is delivered via interactive simulations where you have an opportunity to learn and potentially interact with the system while we lead you through the functionality. At the end you can test your knowledge by completing the short quizzes. These simulations may aid you in preparing for certification on the product.
