IBM Content Navigator Administration V3.0.6

CODE:	LENGTH:	PRICE:
ZF270G	32 Hours	£1,235.00

Description

This self-paced course with hands-on labs provides technical professionals with the skills that are needed to configure, customize, and administer the IBM Content Navigator web client for IBM FileNet Content Manager. The course begins with an introduction to IBM Content Navigator. You learn how to view, add, modify, and search for content in the web client. You learn how to connect to repositories, create new desktops, define cross-repository searches, create teamspace, configure IBM Content Navigator Sync services and Edit services client, define role-based redactions, and build entry templates. You also configure external share to securely share documents with users outside of your organization. You learn how to customize the desktop appearance, modify menus, icons, and labels, create a viewer map, and register a plug-in. IBM Content Navigator can be used to manage content from different types of repositories such as IBM FileNet Content Manager, IBM Content Manager, IBM Content Manager OnDemand, CMIS, and Box. This course focuses on IBM FileNet Content Manager. Through instructor-led presentations and hands-on lab exercises, you learn about the core features of IBM Content Navigator. The lab environment for this course uses Windows Server 2016 Standard Edition.
