VMW\_WS1SUEM21 24 Hours (3 DENNÍ) Kč bez DPH 31,000.00

#### Description

Školení je vedené virtuálně v angličtině. Cena kurzu je 1 130 EUR a bude přepočtena aktuálním kurzem poslední den školení.

In this three-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multi-platform endpoint management solution with VMware Workspace ONE®. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. After the three days, you will have the foundational knowledge for effectively implementing VMware Workspace ONE® UEM.

#### Cíle

By the end of the course, you should be able to meet the following objectives:

- · Explain the general features and functionality enabled with Workspace ONE UEM
- · Summarize essential Workspace ONE administrative functions
- Summarize and implement common Workspace ONE integrations
- · Explain the integration of Workspace ONE UEM with directory services
- Explain and deploy Workspace ONE edge services
- · Onboard device endpoints into Workspace ONE UEM
- Securely deploy configurations to UEM managed devices
- Maintain environment and device fleet health
- Deploy applications to UEM managed devices
- Analyze a Workspace ONE UEM deployment

### Vstupní znalosti

This course has no prerequisites.

#### Program

- 1 Course Introduction
- · Introductions and course logistics
- · Course objectives
- 2 Platform Architecture
- · Summarize the features and functionality of Workspace ONE UEM
- Outline the benefits of leveraging Workspace ONE UEM
- · Recognize the core and productivity components that make up the Workspace ONE UEM platform
- 3 Administration
- Explain the features and functions of Workspace ONE Hub Services
- · Summarize hierarchical management structure
- · Navigate and customize the Workspace ONE UEM console
- · Outline account options and permissions
- 4 Enterprise Integrations
- · Outline the process and needs to integrate with directory services
- Explain certificate authentication and practical implementation with Workspace ONE
- Explain the benefits of integrating an email SMTP service into the Workspace ONE UEM console

- 5 Onboarding
- Outline the prerequisite configurations in the Workspace ONE UEM environment for onboarding devices for management
- Outline the steps for setting up autodiscovery in the Workspace ONE UEM console
- Enroll an endpoint via the Workspace ONE Intelligent Hub app
- Summarize platform onboarding options
- 6 Managing Endpoints
- · Explain the differences between device and user profiles
- · Describe policy management options for Windows 10 and macOS
- 7 Alternative Management Methods
- Describe the function and benefits of device staging
- · Configure product provisioning in the Workspace ONE UEM console
- Understand the benefits of deploying a Workspace ONE Launcher configuration to Android devices
  8 Applications
- · Describe the features, benefits, and capabilities of application management in Workspace ONE UEM
- Understand and configure deployment settings for public, internal, and paid applications in the Workspace
  ONE UEM console
- · Describe the benefits of using Apple Business Manager Content integration
- · Describe the benefits of using server-to-client software distribution
- · List the functions and benefits of the Workspace ONE Software Development Kit (SDK)
- 9 Device Email
- Outline email clients supported by Workspace ONE UEM
- · Configure an Exchange Active Sync (EAS) profile in the Workspace ONE UEM console
- Configure Workspace ONE® Boxer settings

• Summarize the available email infrastructure integration models and describe their workflows 10 Content Sharing

- · Describe the benefits of using Content Gateway and the Content Gateway workflows
- Describe the benefits of integrating content repositories with Workspace ONE UEM
- · Configure a repository in the Workspace ONE UEM console

11 Maintenance

- · Identify console tools that support maintenance
- · Analyze how to implement compliance policies to protect environmental security
- · Outline features and functions enabled by Workspace ONE Assist
- 12 Intelligence and Automation
- · Outline the functionality enabled by Workspace ONE Intelligence
- · Summarize and deploy automation
- · Describe the functions and benefits of using compliance policies
- · Explain the use-case for Freestyle Orchestrator and understand Freestyle Workflows
- · Outline the capabilities of sensors and scripts and the steps for creating them
