Check Point in Azure - Deployment Bootcamp

CODE:	LENGTH:	PRICE:
CKT_WSAZBC	16 Hours (2 dage)	kr 14,600.00

Description

In this workshop we explain how to integrate Check Point Security Gateways in Azure cloud and on what needs to be considered. We consider inbound and outbound security and segmentation and talk about "best practices"

Audience

This workshop complies to administrators and security engineers with collected experience with Check Point Security Gateway/Clusters and now need to realize security in azure e.g., install & deploy Check Point Gateway/Cluster as IaaS (Infrastructure as a Service) in Azure cloud

Prerequisites

- Network basic knowledge
- Experience with classic Check Point firewalls (Setup of Gateways / Clusters)
- Knowledge of a CCSA or CCSE is recommended

Programme

- Cloud / Azure – Overview
- Introduction & Deployment
- Azure Labs
- Erstellen von Azure Basis Infrastruktur (VNET, NSGs, Permissions, ...)
- Check Point Management Installation (Policy Setup, Cloud Guard Controller Setup, ...)
- Cloud Datacenter Integration
- CloudGuard IaaS HA Installation und Konfiguration
- CloudGuard Scaleset Installation
- CloudGuard Hotfixes/Upgrade & Backup

Session Dates

På anmodning. [Kontakt os venligst](#)
