Check Point Certified Endpoint Specialist (CCES)

Kod:	Czas trwania:	Cena netto:
CKT_CCES_R81.X	16 Hours (2 days)	zł5,100.00

Description

This 2-day course helps you learn basic concepts and develop skills necessary to administer Harmony Endpoint security solutions.

Cel szkolenia

Understand the emergence of increasingly more sophisticated cyberattacks and the need to protect endpoints.
Explain the advantages of Harmony Endpoint as a security solution.
Become familiar with the growing Endpoint Security Market.
Describe the key elements of the Harmony Endpoint Architecture.
Describe the Harmony Endpoint Management Environment.
Understand Check Point's Infinity Portal.
Explain the new Harmony Endpoint Web Management Service.
Identify main features of the Harmony Endpoint Management console.
Explain how to create and assign security policies for Endpoint clients using endpoint security.
Understand deployment methods and server considerations for Endpoint Security Management installation.
Identify the different ways to install and configure Endpoint clients.
Understand how Endpoint Security authenticates and verifies clients connecting to the Endpoint Security Management Server.
Describe additional server configurations that are available to help manage Endpoint clients.
Recognize the different types of data security available to deploy on end user machines.
Describe how Full Disk Encryption technology protects and recovers data accessed and stored on Endpoint computers.
Understand how to secure removable media devices.
Understand how Harmony Endpoint is defending company networks against sophisticated attacks.
Describe Check Point Harmony Endpoint Agent.
Explain how Harmony Endpoint Agent's advanced technologies are preventing attacks from infiltrating Endpoint machines and corporate resources
Become familiar with Harmony Endpoint troubleshooting methods.
Understand how to troubleshoot and debug issues that may occur in the Endpoint Security environment.

Uczestnicy

Technical professionals who support, install deploy or administer Check Point products.

Wymagania wstępne

Working knowledge of Windows, UNIX, networking technology, the Internet and TCP/IP.security solutions.
Check Point recommends that students who wish to expand their knowledge participate in the CCSA and CCSE courses beforehand.

Program szkolenia

Zero-Day Detection	
Behavioral Guard	
Deployment	Activate the Harmony Endpoint manager in the Cloud
Anti-Malware	Configure Active Directory.
Anti-Bot	Connect Active Directory to the Cloud management server
Automatic Remediation	Install Initial Agent on the Domain Controller.
Threat Emulation	Demonstrate how to deploy the Harmony Endpoint Agent on a client
Threat Extraction	Configure the policy operation mode
Forensics	Create exception rules for specific removable media devices.
Port Protection	Deploy and configure Anti-Bot and URL Filtering on an Endpoint client
Cloud-Based	Configure and deploy Full Disk Encryption on a client
Data Protection	Test Anti-Bot behavioral engine.
Threat Detection	Configure and deploy Media Encryption
Anti-Exploit	Block access to certain websites for specific user groups.
Anti-Ransomware	Configure and deploy Port Protection on an Endpoint client.
Remote Access VPN	Perform threat emulation and extraction of malicious content.

Topics: APTs   **Exercises:** Learn how to extract malicious content from a document.
