Check Point Certified Multi-Domain Security Management Specialist (CCMS) R80.X

CHECK POINT

Kod:	**Czas trwania:**	**Cena netto:**
CKT_CCMS_R80.X	16 Hours (2 days)	zł7,650.00

Description

This 2-day Specialist course provides a comprehensive understanding of the Check Point Multi-Domain Security Management solution and how to deploy it within the corporate network environment.

Cel szkolenia

Provide a comprehensive understanding of the Check Point Multi-Domain Security Management solution and describe how to deploy it within the corporate network environment.
• Discuss challenges associated with securing large-scale business organizations with distributed network environments.
• Describe the Check Point Multi-Domain Security Management solution and its benefits.
• Understand the components of MDSM and how they work together to help administrators manage multiple network security environments within a single management framework.
• Understand how to install and configure the Multi-Domain Security Management environment.
• Describe how to implement Management High Availability within the MDSM environment.
• Discuss the two types of log server options used to store logs in the Multi-Domain Security Management environment, and how they differ.
• Understand how to manage and view Multi-Domain activity logs in SmartConsole.
• Understand how to configure and implement Global Policy to manage rules for multiple domains.
• Identify various MDSM command line tools commonly used to retrieve information and perform configuration changes on a MDSM Server.
• Describe troubleshooting tools to use for addressing MDSM Server issues.
• Understand how VSX works and how to integrate the technology within the MDSM environment.

Uczestnicy

Technical professionals who need to install, configure, and manage multiple security domains within their network security environment.

Wymagania wstępne

• Check Point CCSA and CCSE Certification

Program szkolenia
