MS-200: Planning and Configuring a Messaging Platform

CÓDIGO:	**DURACIÓN:**	**Precio:**
MCS_MS200	40 Hours (5 días)	A consultar

Description

In this course you will learn about the architecture of the modern messaging infrastructure with Exchange Server and Exchange Online and how to deploy messaging in different scenarios and organizations. You will be guided through the initial deployment process and introduced to the messaging management tools. You will learn how to create and manage different types of recipients, and how to create and manage Exchange Server mailbox databases, which serve as storage locations for all messaging data. Finally, you will be introduced to messaging infrastructure organizational settings, such as how to manage authentication for your messaging environment, how to configure quotas for users in the organization, and how to configure organization sharing with federation.

Objetivos

After completing this course, students will be able to:
•Understand the Modern Messaging Architecture
•Deploy and Manage a Modern Messaging Architecture
•Create and Manage Exchange Recipients
•Manage Email Addresses, Lists, and Resources
•Plan for Mailbox Databases
•Create and Manage Mailbox Databases
