MS-201: Implementing a Hybrid and Secure Messaging Platform

CÓDIGO:	DURACIÓN:	Precio:
MCS_MS201	32 Hours (4 días)	A consultar

Description

This course introduces you to the world of hybrid messaging. You will learn how to deploy a hybrid environment for your Exchange organization and how to migrate mailboxes to Exchange Online. You will begin by examining available mailbox migration options, and then focus on planning for a hybrid deployment. Finally, you will learn how to implement and troubleshoot a hybrid deployment.

Objetivos

After completing this course, students will be able to:

- Plan Mailbox Migrations
- Plan IMAP Migrations
- Plan Cutover and Staged Migrations
- Perform Advanced Migrations
- Understand Exchange Hybrid Deployment Requirements
- Run the Hybrid Configuration Wizard
- Deploy and Manage an Edge Transport Server
- Configure a Hybrid Deployment using the HCW
- Implement Advanced Hybrid Functionality
- Troubleshoot Hybrid Deployments

Programa

Lessons

- Planning Mailbox Migrations
- Performing IMAP Migrations
- Performing Cutover and Staged Migrations

Module 1: Performing Mailbox Migrations•Performing Advanced Migrations

Module 2: Planning a Hybrid Environment

Lessons

- Exchange Hybrid Deployment Requirements
- Planning to Run the Hybrid Configuration Wizard

Lessons

- Deploying and Managing an Edge Transport Server
- Configuring a Hybrid Deployment using the HCW
- Implementing Advanced Hybrid Functionality
- Troubleshooting Hybrid Deployments

Module 4: Lab - Hybrid Deployment and Management

Lab : Hybrid Deployment and Management

- Exercise 1: Perform a mailbox migration to Microsoft 365
- Exercise 2: Manage hybrid scenarios
