# **EMC NetWorker - Installation, Configuration & Administration**

CODE: LENGTH: PRICE:

EMC NICA 40 Hours (5 days) kr43,500.00

# **Description**

This course provides participants with the knowledge and basic skills necessary to install, configure, maintain and monitor NetWorker. The course contains lectures, hands-on labs and video demonstrations to provide experience with specific concepts.

#### **Objectives**

Upon successful completion of this course, participants should be able to:

- Install NetWorker and NetWorker Management Console
- Use NetWorker resources and administrative interfaces
- Configure and perform backup and restore operations
- · Manage NetWorker media and devices
- Manage NetWorker databases
- · Perform cloning and staging
- Generate NetWorker reports
- Describe how to back up Windows hosts for disaster recovery
- Explain how to configure NetWorker in a cluster environment
- Backup and recover the NetWorker Management Console and NetWorker servers

#### **Audience**

This course is intended for system administrators, partners, and software support specialists who install, configure and support NetWorker in Windows and Linux environments.

### **Prerequisites**

To understand the content and successfully complete this course, a student must have a suitable knowledgebase/skill set. **The student must have an understanding of:** 

- Backup and recovery concepts and principles
- · Windows or Linux system administration
- Network administration in a TCP/IP environment
- SAN and storage device concepts
- Completion of the NetWorker Fundamentals eLearning course is a prerequisite

# **Programme**

The content of this course is designed to support the course objectives. Module: NetWorker Overview

Lesson: NetWorker Control Data

• Lesson: NetWorker Concepts and Terminology• Lesson: NetWorker Process and Backup Flow **Module: NetWorker Planning and Installation** 

- · Lesson: Performing Pre-installation Planning
- · Lesson: NetWorker Licensing

- Lesson: Installing NetWorker and NMC
- Lesson: Controlling NetWorker Processes
- Lab: NetWorker Installation
- Demo: Deploy and Configure an NVE

#### **Module: Media Tracking and Management**

Lesson: NetWorker PoolsLab: NetWorker Pools

#### **Module: Performing Backups**

- Lesson: Data Protection Policies
- · Lesson: Scheduling and Monitoring Backups
- Lesson: Advanced Backup Options
- Lesson: VMware Backup Options
- Lab: Configuring Backups

#### **Module: Configuring and Managing Devices**

- · Lesson: Devices Overview
- · Lesson: Using Disk Devices
- Lesson: Using Tape Devices
- · Lesson: Configuring and Managing Library Resources
- Lab: Configuring Devices
- Demo: Configuring Library Devices

#### Module: NetWorker Database Management

- Lesson: Viewing and Managing Tracking Data
- Lesson: Manual Management of the NetWorker Databases
- Lab: NetWorker Databases

# Module: Performing NetWorker Recoveries

- Lesson: NetWorker Recovery Overview
- Lesson: Performing Recoveries by File Selection
- Lesson: Performing Save Set Recoveries
- Lesson: Performing Directed Recoveries
- Lesson: Performing Filesystem Snapshot Recoveries
- Lab: NetWorker Recoveries

#### **Module: Performing Cloning and Staging**

- Lesson: Performing Cloning
- Lesson: Performing Clone Controlled Replication
- Lesson: Performing NetWorker Staging
- · Lab: Configuring Cloning and Staging

#### Module: NetWorker Security

- Lesson: NetWorker Security Features Overview
- Lesson: NetWorker Authentication
- Lesson: NetWorker User Groups
- Lesson: NetWorker Logs
- Lesson: Configuring NetWorker in a Firewall Environment
- Lab: NetWorker Authentication, User Groups and Logs

#### Module: Administering NetWorker

- Lesson: Events and Reporting
- Lesson: Managing NetWorker Parallelism
- Lesson: Software Distribution

Lesson: Multi-tenancy

• Lab: NetWorker Administration

# Module: Recovering Windows Hosts and Cluster Environments

• Lesson: Recovery for NetWorker Windows Client Hosts

• Lesson: Backup and Recovery of Cluster Environments

## Module: Recovering NetWorker and NMC Servers

- Lesson: Protecting the Console and NetWorker Server Databases
- Lesson: Recovering the NetWorker Server and NMC
- Lab: Backup and Recovery of NMC and NetWorker Databases

In addition to lecture and demonstrations, this course includes labs designed to allow practical experience for the participant.
