Description

Learn essential skills for configuring and administering Commvault® software to protect data in virtual and physical infrastructures. This 3-day course provides all the information about the Commvault environment core components including:

- CommServe® server configuration
- MediaAgent design
- Agent deployment
- Storage configuration
- Data security

The class is balanced between technical discussions using detailed diagrams and white board sessions, and hands-on labs using an Education Services CVLab environment focusing on the Commvault Command Center™.

Objectives

The Commvault® Professional Foundations exam validates the skills required to configure and administer a CommCell® environment using the Commvault Command Center™. It proves a professional level skillset in the following areas:

- CommCell ® Administration – user and group security, configuring administrative tasks, conducting data protection and recovery operations, and CommCell® monitoring.
- Storage Administration – deduplication, disk, cloud and tape storage configuration.
- CommCell Core Components – CommServe® server, MediaAgent and placement, client and agent configuration.

Passing the Commvault® Professional Foundations exam in combination with passing the Commvault® Professional Advanced exam results in obtaining the Commvault® Certified Professional certification.

Audience

This course is intended for personnel responsible for day-to-day administration and management of Commvault® software.

Prerequisites

It is recommended that you watch the Welcome to Commvault® e-Learning course. This course is included at no additional cost, as a part of the Commvault Professional Foundations registration, and is recommended to be completed prior to attending the course.

Programme

CommCell® Environment | CommCell® Overview | Product Lines | Commvault Command Center™ Core Setup
 | Commvault Command Center™ Navigation | Features | Commvault Command Center™ Customization
 | CommCell® Core Components **Storage Configuration** | Storage Overview | Disk Storage | Cloud Storage | Deduplication
 | Tape Storage **Security** | Storage Policies | Retention **Client Administration** | Users Security | Network Topologies
Data Management | Plans | Data Protection | Data Recovery | Job Management **Servers and Features**
 | Servers and Server Groups | Agent Deployment | Files and Network Storage Protection | Virtual Machine Protection **Monitoring**
 | Views | Alerts | Reports | Support
