ONTAP Cluster Installation Workshop (24 Training Units)

CODE:

NEP_OT-CLU-I-WS

LENGTH:

16 Hours (2 days)

PRICE:

Request Price

Description

This advanced installation course prepares you to deliver ONTAP® system installation services in a way that meets NetApp® quality standards and uses NetApp best practices.

With your laptop and the appropriate tools, you practice all installation tasks and set up NetApp storage controllers and shelves in a clustered configuration.

You learn how to set up and test access to the system and the AutoSupport connection, and you learn how to conduct a customer handoff briefing.

Objectives

This course focuses on enabling you to do the following:

- Complete pre-installation tasks
- List the cluster cabling options and restrictions
- Install and update cluster and management switches
- Install, configure, and test a two-node switched cluster
- Provide a customer with the appropriate information when you are handing off a system

Audience

NetApp and Partner installation engineers

Prerequisites

- ONTAP Fundamentals (ILT)
- ONTAP Administration (ILT)
- Universal NetApp FAS Installation (WBT)
- NetApp Installation Standard (WBT)

Session Dates

On request. Please [Contact Us](#)
