# Trend Micro Deep Security 20 Training for Certified Professionals v2 – Update course

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
TRM_DS-20-UC	8 Hours (1 day)	€950.00

## Description

This is a one-day, instructor-led training course aimed at participants who have already previously followed a full 3 days training in the past of Deep Security 12 and who still hold a valid Certified professional certification (valid 2 years). This one-day update training covers all new product features and training material that came in addition to version 11 over the last 2 years. This course is based on Deep Security 20 Training material. This course is taught by Trend Micro-certified trainers.

## Audience

This course is designed for and only available to IT professionals who have already been certified on Deep Security within the last 2 years

## Programme

The course topics in this 1 day training are divided into the following lessons: **Trend Micro Deep Security 20 Overview**

- Deep Security Smart Check • Deep Security Analyzer • Threat Detection **Deep Security Manager**
- Server and Operating System Requirements • Database requirements • Upgrading to Deep Security 20 **Deep Security Agent**
- Upgrading to Deep Security 20 • Organizing computers using Smart Folders **Trend Micro Smart Protection Services**
- File Reputation Service • Web Reputation Service • Predictive Machine Learning Service • Census Service
- Certified Safe Software Service • Smart Feedback **Protecting Servers from Malware** • Predictive Machine Learning **Blocking Unapproved Software** • Global block • Pre-approving Software – Trusted Updater • Order of Analysis
- Resetting Application Control **Protecting Containers** • DevOps • Software Development using Containers
- Concept and Terminology • Protecting Containers with Deep Security **Automating Deep Security Operations**
- Scheduled and event-based tasks • Quick start template for AWS and Azure • Application Programming Interface • API references **Connected Threat Defense** • Integrating Deep Security with Apex Central and Deep Discovery Analyzer

## Test and Certification

Upon completion of this course, participants may complete the certification examination, in order to validate their Trend Micro Certified Professional for Deep Security certification for another 2 years.
