IBM Rational CLM for Quality Professionals v6.0.5 (IBM Engineering Lifecycle Management)

CODE:	LENGTH:	PRICE:
ODC8025G	20 Hours	€700.00

Description

Please note that as of version 6.0.6,

- IBM Rational DOORS Next Generation (RDNG) has been renamed to IBM Engineering Requirements Management DOORS Next (DOORS Next),
- IBM Rational Team Concert (RTC) has been renamed to IBM Engineering Workflow Management (EWM)
- IBM Rational Quality Manager (RQM) has been renamed to IBM Engineering Test Management (ETM)
- IBM Rational Rhapsody has been renamed to IBM Engineering Systems Design Rhapsody

This course bundle provides access to self-paced training pulled from the DOORS Next Generation, Rational Team Concert, and Rational Quality Manager courses. This bundle is designed to provide quality professionals with the necessary skills to navigate and understand common components of the CLM platform appropriate for this role.
It provides :

- The full suite of modules from 2-day Quality Manager course
- Key important modules from the DOORS Next Generation course
- Key important modules from the Rational Team Concert course This course contains interactive lessons that focus on skill growth. The course also contains exercises mirroring the instructor-led version and are performed in a simulated environment that does not require connection or access to a live system which provides extreme flexibility in taking the course.

Objectives

- Understand CLM
- Understand the role of DNG
- Organize requirements
- Develop a test plan
- Define schedules, test environments, and lab resources
- Develop a test case and a test script
- Create a test suite Run tests Submit a defect

Audience

This course is for:

- Test Managers
- Test Leads
- Quality Managers
- Project Managers, business analysts, and testers who need to understand how to plan and manage a test effort with Rational Quality Manager

Prerequisites

- Familiarity with the Microsoft Windows operating system
- Familiarity with applications for the Microsoft Windows operating system
- Familiarity with Web browsers

Programme

- CLM and RTC Overview
- Introduction to DNG
- Essentials of DNG
- Organizing Requirements
- Organizing Requirements Simulation
- Managing Work Items in the Eclipse Client
- Managing Work Items
- Test Management and RQM
- Planning the Test Effort
- Planning the Test Effort Simulation
- Developing the Test Plan
- Developing the Test Plan Simulation
- Evaluating the Test Plan
- Evaluating the Test Plan Simulation
- Developing Test Cases
- Creating Test Cases Simulation
- Developing Test Suites
- Creating Test Suites Simulation
- Developing Test Scripts
- Creating Test Scripts Simulation
- Managing Test Execution Records
- Managing Test Execution Records Simulation
- Running Tests
