# IBM Rational CLM for Business Analysts 6.0.5(IBM Engineering Lifecycle Management)

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
ODC8035G	12 Hours	€440.00

## Description

**Please note : As of version 6.0.6, the IBM Rational DOORS Next Generation (RDNG) has been renamed to IBM Engineering Requirements Management DOORS Next (DOORS Next)**

This course teaches analysts and engineers how to define, elaborate, organize, and manage textual and graphical requirements and requirements-related information in IBM® Rational® DOORS Next Generation v6.

Rational DOORS Next Generation is a key component of the Rational solution for Collaborative Lifecycle Management (CLM). The product provides requirements definition and management capabilities in a fully-integrated environment that can also include IBM® Rational Team Concert for change and configuration management, and IBM® Rational® Quality Manager for quality management. This course contains interactive lessons that focus on skill growth. The course also contains exercises mirroring the instructor-led version and are performed in a simulated environment that does not require connection or access to a live system which provides extreme flexibility in taking the course.

## Objectives

- Explain the IBM Rational Collaborative Lifecycle Management (CLM) approach
- Find, create, and manage work items in Rational Team Concert
- View and work with requirements and other artifacts in a collaborative context
- Create and edit requirements documents and other artifacts, including both textual and graphical artifacts
- Create, manage, and view traceability relationships between requirements and other artifacts
- Manage requirements throughout a project lifecycle
- Understand the role of RQM in the CLM lifecycle
- Navigate RQM

## Audience

Business Analyst

## Prerequisites

You should have the following skills, experience, or have taken the following Rational courses:

- Experience working with Microsoft® Windows®
- Understand basic business analysis principles

## Programme

- Introduction to DNG
- Essentials of DNG
- Organizing Requirements
- Organizing Requirements Simulation
- Modules as Requirement Specifications
- Working with Modules Simulation
- Working with Rich-Text Artifacts
- Rich-Text Artifacts Simulation

- Importing Artifacts
- Importing Artifacts Simulation
- Establishing Traceability
- Establishing Traceability Simulation
- Managing Work Items
- Managing Work Items Simulation
- RQM Overview

## **Session Dates**

On request. Please [Contact Us](#)
