SnapProtect Solution Administration (36 Training Units)

CODE:

NEP_SNAP-P-SA

LENGTH:

24 Hours (3 days)

PRICE:

€2,850.00

Description

This course provides instruction, hands-on practice, and interactive demonstrations to help you to learn how to plan, implement, operate, and troubleshoot the NetApp SnapProtect solution. Learn how to configure backup and recovery for NetApp storage system volumes, Microsoft SQL, SharePoint, and Exchange server content databases, Hyper-V and VMware virtual machines, and Oracle databases. Learn how to upgrade, restore, and troubleshoot the SnapProtect solution central control: the CommServe and DataFabric Manager servers.

Objectives

- Install and configure a NetApp SnapProtect solution environment
- Set up SnapProtect disk libraries
- Set up SnapProtect disk-to-disk and disk-to-tape storage policies
- Protect NAS and SAN application data in physical and virtual environments
- Upgrade and restore the SnapProtect solution environment

By the end of this course, you should be able to: • Use diagnostic tools to troubleshoot the SnapProtect solution

Audience

Customers, Partners, and NetApp employees

Prerequisites

- Planning and Installing the SnapProtect Solution
- Operating and Troubleshooting the SnapProtect Solution
- Safeguarding Applications with the SnapProtect Solution)

Session Dates
