AI on IBM Watson: The Essential Guide

CODE: **LENGTH:** **PRICE:**

W7121G 1.04 Hours \$791.00

Description

Watson is IBM's portfolio of cloud native, business-ready tools, applications and solutions, designed to reduce the costs and hurdles of AI adoption while optimizing outcomes and responsible use of AI. By the end of this short course you'll understand the technologies that underlie Watson, the tools and applications that compose the Watson portfolio, and how the Watson platform is bringing value to businesses around the world.

IBM Customers and Sellers: If you are interested in investing in your training, please consider the following Individual or Enterprise Subscriptions:

- IBM Learning for Data and AI Individual Subscription ([SUBR022G](#))
- IBM Learning for Data and AI Enterprise Subscription ([SUBR004G](#))
- IBM Learning Individual Subscription with Red Hat Learning Services ([SUBR023G](#))

Objectives

- Technologies of Watson
- The Watson Platform

Audience

Anyone who wants to learn more about the Watson portfolio.

Prerequisites

None

Programme
